

LIUDMILA VARONIK

GRAPHIC DESIGNER & ILLUSTRATOR

PROFILE

I'm a Graphic Designer and Illustrator. A multidisciplinary designer I work in brand & visual identity, digital, packaging and illustration, print, web design. My approach is to create functional identities that reflect the true character of the clients I work for. I pay special attention to detail, follow the modern trends in design. With a love for travel, culture, and a constant want to learn, I aim to bring all of these elements into my design, and push the boundaries to create something truly unique. I'm purposeful, hardworking, responsible, efficient, communicative, creative. Having a great interest in design and highly motivated to create the best design possible, I enjoy working in groups and on my own. I like to be engaged in photography, painting, trying new techniques in drawing and exploring the various directions of arts and crafts (batik, cutting out paper, etc.).
